

Floor Drains

10x10 or 15x15
square shape
floor drain

Gruen floor drains draw attention with their ultra-thin frames, aesthetic appearance, easy application and safe structure. Thanks to its horizontal or vertical outlet siphons with an insulating membrane, it guarantees impermeability. Water screened anti-odor fermature and flap options, with its spiral-shaped hair catcher, while minimizing the maintenance and cleaning times, offer you great comfort. In addition to different inox cover options to be positioned in thin frames compatible with height differences, it allows to produce excellent solutions with the option that allows tile piece placed inside of the frame.

Technical Details

Easy to align
Specially designed patented levelling part helps to align tiles and floor drain cover easily.
First insert stainless steel cover and frame into the levelling part, then start to tile. When tiling is over, easily take it out.

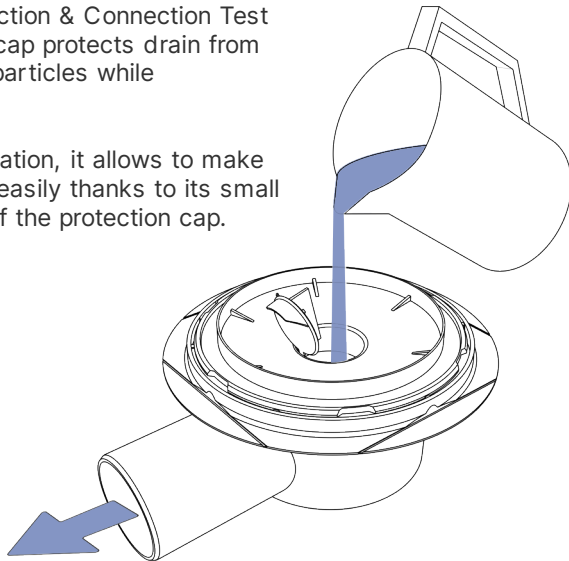

Odor Preventing
Special odor preventing system, block unwanted smells coming from drain. Hair and dirt holder allows to clean drain easily.

Eccentric Head
Drain body with eccentric clows allows to adjust stainless steel frame. Thanks to that feature frames can adapt any unsuitable floors.

Drain Protection & Connection Test
Protection cap protects drain from unwnated particles while installation.

After installation, it allows to make water leak easily thanks to its small lid center of the protection cap.
